

## AGENDA

Water Treatment Advisory Committee

Wednesday, August 14, 2013

6:00 p.m. – Council Chambers

City Hall – 710 NW Wall, Bend

---

1. Clarify the goal of the committee:  
Section 6 of the City Council resolution from February 20, 2013 (link below) provides council direction as:
  - As part of its commitment to being responsive to community questions about the project, the City Council is willing to take an additional third party, independent look at the treatment methods, timing and hydro aspects of the project, with a neutral and knowledgeable third party facilitating the discussion. The City Council does not intend to review the underlying values and assumptions for the Council decisions to retain the dual source and to replace the transmission line.
  - Full resolution  
at: <http://www.bendoregon.gov/modules/showdocument.aspx?documentid=12871>
2. Technical Review of the options with costs. This will be an initial review of options, we will revisit the options after we discuss risks and water quality issues in future meetings.
3. Rate impact of capital and operational costs.
4. Prepare for next meeting (focused on risks and water quality as defined by the committee)
