Note: The contingency and reserves amounts appear budgeted as negative in the current fiscal year, but are overall positive in the biennium.

## Additional Detail and/or Explanations

In some cases, additional clarification or details may be needed to better understand the information presented. Please see these items below.

**Expenditures/Requirements** – The Expenditure/Requirements section of the financial statements reflect the full cost of operations for each department including personnel and benefits, materials and services, capital expenditures, debt service, and transfers. Contingencies and reserves are presented in the aggregate for the entire City. The year-to-date (YTD) % of the Budget for the month of May 2023 should be approximately 92% (assuming expenditures are incurred evenly throughout the fiscal year (FY) which runs from July to June). The explanations below are based on the year-to-year variance column and are for items >15% and >\$100,000 that may need additional explanation.

### **20 Public Safety**

*1300 – Police Fund* year-over-year expenditure variances are driven by salary increases due to vacant positions filled and wage increases effective in FY23, as well as the purchase of 16 new police vehicles in FY23.

### **30 Community & Economic Development**

2200 – Community Development:

*1320 – Private Development Engineering Fund* year-over-year expenditure variances are driven by increased expenditures for salaries and benefits which are related to two new positions added in mid-FY22 as well as higher transfers in the current fiscal year because transfers have been more evenly recorded throughout FY23 versus in FY22 when transfers were lower during the year with a larger true-up adjustment recorded at year-end.

*5100 – Departmental Administration* year-over-year expenditure variances are driven by increased salaries and benefits associated with several new FTEs added late in FY22.

2300 – Economic Development:

*1200 – Affordable Housing Fund's* year-over-year increase is due to a transfer of state grant funds related to houseless operations that were received in the affordable housing fund and then transferred to the general fund where houseless operations were recorded until April 2023.

*1210 – Community Development Block Grant Fund* year-over-year expenditure variances decreased due to timing differences in the loan funding and award cycle.

*1215 – Houseless Fund* is a new fund established in March 2023. The FY23 actual expenditures for this fund were moved from the General Fund in April and will now be booked in the new fund going forward.

*1220 – Business Advocacy Fund* year-over-year expenditure increases relate to childcare workforce grant expenditures in FY23

*1250 – American Rescue Plan Act Fund* year-over-year variance relates to the timing of grant funding. The grant funding for ARPA began in March of FY22. Prior year costs did not start until March.

### **30 Community & Economic Development (continued)**

2300 – Economic Development (continued):

2320 – *BURA Juniper Ridge Debt Service Fund* year-over-year variance relates to the timing of the debt payment. The spring debt payment occurred in May of fiscal 22 and will occur in June of fiscal 23. The year-over-year variance will wash in June.

3310 - *BURA Murphy Crossing Construction Fund* year-over-year variance relates to expenditures on a one-time affordable housing project that occurred in FY22.

3320 - *BURA Juniper Ridge Construction Fund* year-over-year expenditures increased due to increases in capital improvement and infrastructure expenditures in FY23 associated with development in Juniper Ridge.

2400 - Growth Management Fund year-over-year expenditure variances are driven by increased salaries and benefits associated with new FTEs in FY23.

### **40 Infrastructure**

3200 – Engineering & Infrastructure Planning Fund year-over-year expenditure variances are driven by increased salaries and benefits associated with several new FTEs added late in FY22.

3300 – Transportation:

2410 – *2011 Go Bond Debt Service Fund* year-over-year expenditure decrease relates to the refund and re-issuance of the GoBond in March 2022

2420 – *2020 Go Bond Debt Service Fund* increase relates to the first debt issuance for this debt that occurred in March 2022 and the first debt service payment in FY23.

3400 - *Transportation Construction Fund* year-over-year expenditure has decreased due to the Empire/Murphy project wrapping up in FY22. These reduced costs have been partially offset by the initial costs associated with the North Corridor project in FY23. Additionally, costs for several projects this year are now being funded by the Go Bond and costs are being incurred there accordingly.

3420 – *2020 Go Bond Construction Fund* year-over-year expenditure increased due to capital project expenditures in FY23 relating primarily to the Wilson Corridor project.

3400 – Street & Operations year-over-year variance increased due to increases in salary expenses with new FTEs, as well as street preservation work done in the first quarter of FY23 and capital project expenditures at the airport.

3500 – Utility:

4400 - *Stormwater Fund* year-over-year expenditure variances are due to decreases in large capital improvement and infrastructure expenditures related to the Murphy and Newport Corridor improvement projects in FY22.

## **50 Administration & Central Services**

The Administration and Central Services category of expenditures covers the administrative costs of the City Council, City Manager's Office, City Attorney's office, Communications, Performance Management, Human Resources, Financial Services, Procurement, Project Management, Real Estate, Information Technology, Insurance & Risk Management, Facilities Management, Fleet Management, Sustainability, and Diversity, Equity, Inclusion & Accessibility. In addition, it includes the administration of the centralized expenditures of the PERS Debt Service Fund and the Other Post-Employment Benefits (OPEB) Fund.

### **Reserves, Contingency, and Year to Year Transfers**

Year-to-Year Transfers reflect budget adjustments between years of the biennium. They do not increase or decrease the legally adopted budget amounts; they just transfer those authorized amounts between years.
